

JL Gold Balances Compact and Portable

Space-Saving Design

The ultra-sleek design of JL balances makes them perfect for small spaces. These light and compact balances are easy to carry to wherever you want to weigh.

Bright Display

The backlit display with large figures is easy to read in both bright and dim lighting conditions.

Designed to Last

A stainless steel weighing pan and robust construction ensure reliable performance, day after day.

Battery Operation

When you need to weigh on the go or a reliable power supply is not available, JL balances are the perfect solution.

Strong and Lightweight

For Weighing Jewelry Anywhere

JL gold balances combine quality with compactness and affordability to fulfill all your simple gold weighing requirements. JL balances are at home in any jewelry shop or other retail application where simplicity matters most. JL balances range from 600 g up to 6 kg with readability from 0.02 g to 0.01 g.

These compact balances are solidly built from quality materials and are still light enough to pick up and carry anywhere. Plus, they can be operated using batteries, giving you total weighing flexibility.

The large stainless steel weighing platform doesn't scratch or corrode and provides plenty of space for weighing gold, silver and gemstones. You can choose from up to 17 different weighing units.

JL Portable Gold Balances – Model Overview

Readability	Model	Capacity	Repeatability	Weighing Pan	Dimensions L x W x H
0.01 g	JL602GE	620 g	0.01 g	∅ 160 mm	194 x 225 x 67 mm
